Infection Control Products

## EnviroCair High Performance Disinfectants

*EnviroCair takes disinfectants to a new standard in infection control. The unique blends of high performance disinfectants and added non-disclosed ingredients make EnviroCair revolutionary in the way it kills germs.*

EnviroCair is specifically formulated to control bacteria, viruses, spores, mould, yeasts and fungi type pathogens and can achieve better results than currently used carcinogenic products such as bleaches, chlorines, peroxides, phenols, aldehydes, and other harmful chemicals - still unbelievably in use today!

EnviroCair is a proven product range tested in UK laboratories, NHS testing facilities and European laboratories. The active ingredient can found in all our range, including surface disinfectants, sanitisers, hand gel, hand wash and surface wipes.

- 🌐 Kill germs faster - Proven under 1 minute tests
- 🌐 Contain less active ingredients
- 🌐 Kills Clostridium Difficile spores (C.diff) in under 1 minute
- 🌐 Kills to log<sub>6</sub> and beyond on bacteria and viruses
- 🌐 Safe in all human environments
- 🌐 Food safe and non-hazardous
- 🌐 Biodegradable - low toxicity
- 🌐 Proven to have residual performance for up to 14 days
- 🌐 Non-alcohol, suitable for all faiths
- 🌐 Non-corrosive, use from floor to ceilings

**NO OTHER PRODUCT CAN OFFER THE SAME EFFICACY, SPEED OF PERFORMANCE WITH SAFE LEVELS OF APPLICATION**

# Product Overview

*The range of EnviroCair products include*

**Disinfectants**

**Sanitisers**

**Hand Gels**

**Hand Wash**

**Surface Wipes**

**Air Diffusers**

*EnviroCair kills most major pathogens including*

- 🦠 MRSA
- 🦠 HIV (AIDS)
- 🦠 E.Coli
- 🦠 Salmonella
- 🦠 Listeria
- 🦠 Norovirus
- 🦠 Legionella
- 🦠 Hepatitis
- 🦠 H1N1 Swine Flu
- 🦠 H5N1 Avian Flu
- 🦠 H5N8 Flu Viruses
- 🦠 Rotavirus
- 🦠 Adeno Virus
- 🦠 Polio
- 🦠 Tuberculosis
- 🦠 Rubella
- 🦠 and many more

*Tested to European standards  
EN Norms*

**EN1276**

**EN1040**

**EN1650**

**EN1275**

**EN1499**

**EN1500**

**EN13704**

**EN13697**

**EN14476**

**EN14675**

**EN13727**

**EN12791**

**Tested in NHS facilities in the UK  
and in DGHM laboratories in  
Germany**

**Also EnviroCair is DEFRA and  
Veterinary Agency approved for  
UK.**

**Tested and proven in the UK & Europe**

# Our Product Range

*EnviroCair has been proven to kill even the most difficult pathogens such as clostridium difficile under 'dirty' conditions - not just 'clean' conditions. It is powerful, yet totally safe. EnviroCair destabilises the cell membrane wall, shredding germs apart quickly and permanently whilst preventing replication or regrowth of cells.*

## F-1000

A ready to use disinfectant that kills MRSA, HIV, E.Coli, Salmonella and hepatitis and most bacteria and virus based pathogens to 99.9999% (log6) at a low 1% dilution. Can be used safely in open food areas and in hospital / healthcare sectors around people and patients. Also kills mould, yeast and fungi and is perfect for domestic to commercial use, including food processing facilities.

## F-2500

A stronger disinfectant generally as with F-1000 but also proven to kill all flu viruses including H1N1 Swine Flu and H3N8 / H5N12 flu viruses and diluted at 2.5%, and still food safe. No protective clothing or gloves are required. Use on any surface as is non-corrosive.

## F-4000

A stronger disinfectant diluted to 4% for high risk areas. Kills Clostridium Difficile to log<sup>3</sup> yet still safe to use in any area without protective gloves or masks. Can be used as a general cleaner / disinfectant on any surface as it non corrosive or hazardous. Kills bacteria, viruses, mould, yeast, fungi and spores.

## F-5000 and F-10000

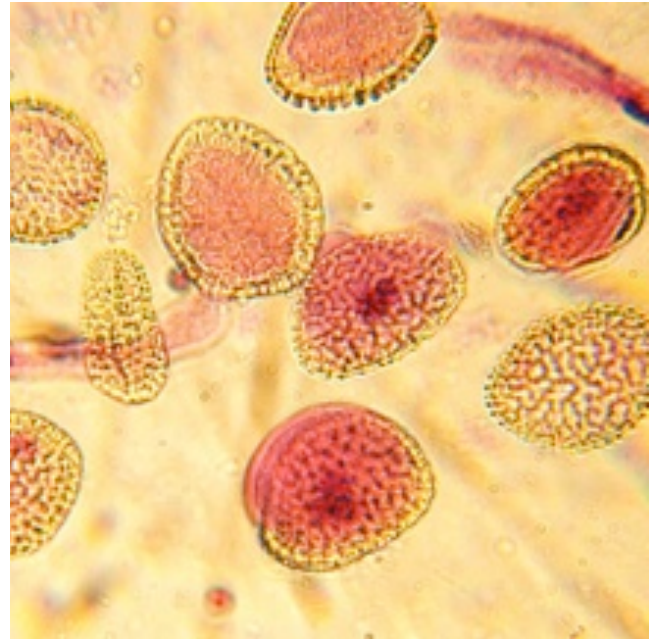

Specifically diluted for extreme high risk areas including decanted wards where HCAI infections are present. Kills C.Diff to Log<sup>4</sup> in less than 1 minute and is the fastest performing high performance product available today.

## FC-50

A concentrated version of EnviroCair which can be diluted 40ml per litre of clean water to perform as F-5000, and F-4000.

Diluted 30ml to the litre it performs as F-2500 and at 20ml per litre performs as F-1000

safe, low toxicity, reasonable pH and still non-hazardous.

## Hand Gel

Our EnviroCair hand gel contains the same level of infection control as our F-4000 surface disinfectant, killing most bacteria, viruses and mould, yeasts and spores to at least 99.99% and beyond.

Our innovative hand gel does not contain harsh ingredients or alcohol and has a level of skin nourishment rather than the drying problems caused by alcohol based hand gels. Kills germs in seconds.

EnviroCair hand gel is a revolutionary product that kills viruses as well as bacteria so is a more advanced than antibacterial products. It contains aloe vera and is alcohol free.

## Hand Wash

Our hand wash is an advanced product to be used where there is hand washing facilities and can kill bacteria and viruses to 99.99% within seconds.

It is kind to skin yet has the same powerful efficacy as or F-1000 and F-2500 disinfectants

## Surface Wipes

Made to exacting standards they have the efficacy as with F-4000 disinfectant killing up to 99.9999% of germs including Clostridium Difficile as well as bacteria, viruses and spores.

## Better than the rest - by far!
